

## GPS TRACKING SOLUTIONS KNOW WHERE THEY ARE INSTANTLY

### Track, recover and document those responsible.

No buttons. No controls. No complications. Simply charge the battery, plug it in, and attach the Enforcer Pro to any vehicle within seconds. ProStar's Enforcer Pro is a real-time GPS tracking device – giving you up-to-date locations 24 hours/day with any computer connected to the internet around the world.

#### Enforcer Pro GPS tracking solutions offer:

- Location updates every 10 seconds
- Lithium-ion rechargeable battery capable of providing 24+ days of tracking
- Waterproof container and magnet mount for easy installs including under bumpers and hoods.
- Unlimited historical data stored on a secure server.
- Precise locations – accurate within six feet.

#### Enforcer Pro GPS tracking devices are easily embedded into:

Bait vehicles • Assets • Ransom Bags • Automobiles • Packages  
Copper wire spools • Animal carriers • Appliances •

#### Why ProStar?

ProStar Cameras has been considered a pioneer in the asset tracking industry – dating before back GPS was available to the general public using cellular signal triangulation. Our product designs have continually pushed the envelope and moved the company forward as quickly as technology will allow.

**Enforcer Pro GPS tracking devices are an excellent addition to most manned surveillance situations. Training for placement, laws and regulations is available.**

ProStar Services offers 24/7 around-the-clock surveillance monitoring services from our office in Auburn Hills, MI.

ProStar Services can turn any car into a well-equipped custom surveillance vehicle. Contact us details.
